MS ID#: MEDRXIV/2026/359149
MS TITLE: Notes about Human Body System & Nutrition

Dear Dr. Alahassa,

This is an automatic message acknowledging your online submission to medRxiv.

Article screening typically completes within 4 - 5 days; however, it may take longer over a weekend or holiday or if there are concerns about whether the paper is within scope.

If you would like to make changes to your submission prior to it being approved for posting on medRxiv, log in to your Author Area, click on the "Manuscripts Undergoing Screening" section and select "Request Return of Manuscript" for the corresponding MS ID# you would like us to return. Do not create a new submission to update your manuscript as this will create a duplicate submission and will significantly delay the screening of your manuscript.

In addition, note that medRxiv now allows you to save time submitting to certain journals by transmitting your manuscript files and metadata directly. To submit your paper to a journal, please click on the link below to access your "Submit medRxiv Preprint to a Journal" queue:

(https://submit.medrxiv.org/submission/queue?queueName=send_paper_away_author)

Thank you for your submission.

Best wishes,
The medRxiv team
